HAWAIIAN POOL BUILDERS Captures Awards in Regional Pool, Spa and Hot Tub Competition

MAUMEE, OH – In a competition that invited entries from pool builders in 6 states, HAWAIIAN POOL BUILDERS received a Gold Award in the Commercial Water Feature Category, a Gold Award in the Residential Concrete Pools Category, and a Silver Award in the Specialty Commercial Semi-Public Pools Category. The 2008 Annual Awards of Excellence competition is conducted by the Association of Pool & Spa Professionals, Region 6.

The awards competition is open to members of the Association in Ohio, Michigan, Kentucky, Western New York, Western Pennsylvania and West Virginia. Entries are solicited in October and November each year, and the winners are announced in February.

Hawaiian Pool Builders, a Maumee-based company, has been in business for over 20 years and builds custom Gunite, Fiberglass, and Vinyl Liner pools for both residential and commercial clients. They have proven their expertise and diversity through winning three APSP awards for outstanding workmanship and superior quality. The first Gold award was granted for the installation of the magnificent Levis Fountain at the Clocktower located in Levis Commons, Perrysburg, Ohio. When asked about the approximately nine-story Levis attraction, Mike Kerr, President of Hawaiian Pool Builders, beams with delight when he explains *“It was a pleasure to be a part of such an exciting area of Toledo (Levis Commons) and working in conjunction with the Dillon Corp. was an honor.”* Additionally, Hawaiian Pool Builders received their second Gold award for the installation of a custom free-form residential Gunite swimming pool which included four tiled bar stools, tanning deck entry, and stunning natural rock waterfall. The third award Hawaiian Pool builders received was a Silver award for the installation of a custom free-form Gunite pool located at Sauder Heritage Inn, in historic Sauder Village of Archbold, Ohio. This indoor commercial pool was the centerpiece of their most recent expansion.
